30-Day Activation Handbook

Enterprise Design Systems Architect • B2B SaaS • Cybersecurity
US / UK / EU International Client Acquisition

Eswar Maheswaran (Yogalingam)
eswar@eswarcreatives.in • eswarcreatives.in
Companion to: 2-Week International Client Acquisition Handbook

Goal: 1 paid international client via LinkedIn Premium in 30 days

Your Starting Position

ASSETS READY	CONTACTS IN CRM	PREMIUM DAYS LEFT	PAID CLIENTS WON
4	24+	30	0→1
Site, CV, CYGNVS case study, handbooks	CPOs, VPs, Founders — US SaaS/AI	Use every single one	Target: 1 paid audit in 14 days

DAY 1 — One-Time Setup (45 min, do this first)

01

Custom CTA Button

Time required: 10 min

Set to: "Book a free UX audit call"

URL: calendly.com/eswarcreatives/25-min-intro-call

Appears on every post, in search, and on your page header.

02

Add Kevin Gaffrey Testimonial

Time required: 10 min

Copy the CTO/CYGNVS quote from eswarcreatives.in into "Add a custom testimonial".

His title is your strongest US security-buyer proof.

03

Dynamic Cover Slideshow (5 slides)

Time required: 15 min

Slide 1: "32% triage time reduction. 60+ components. 180+ tokens."

Slide 2: Before/after AI alert grouping visual

Slide 3: Cross-platform — Web / iOS / Android

Slide 4: "\$3.25M ARR platform. Design systems that ship."

Slide 5: "5-day SaaS UX Audit. \$750. eswarcreatives.in"

04

Credibility Highlights

Time required: 5 min

Add: HFI-CUA Certification • CYGNVS engagement • 15+ years enterprise SaaS

05

Turn ON Auto-Invite

Time required: 1 min

Toggle AUTO INVITE to ON.

Anyone who engages with your posts is automatically invited

to follow the page. Passive follower growth while you do outreach.

06**Apply for Verification Badge**

Time required: 2 min

One-time task. Adds trust signal permanently to your page.

Settings → Verification → Apply now.

The 70-Minute Daily Motion

Run this every weekday. Same order, same time block.

0-10 min	Page Visitor Check Open LinkedIn Company Page → Analytics → Visitors Note any CPO / VP / Founder visits. These are warm leads. Add to "Visitor Leads" column in your daily tracker.
10-30 min	5 Cold Emails Use Template A for security/AI accounts (Fiddler, Defense Unicorns) Use Template B for SaaS product accounts (Render, Fieldguide, Nexxa) Personalize the {{specific observation}} line every single send.
30-45 min	5 LinkedIn Connects + DMs Send connect request with note (300 char max) OR send follow-up DM to anyone who accepted yesterday OR engage with 2 prospects posts before DMing (warm signal)
45-55 min	Engage with Prospects Content Leave substantive comments on 3-5 target posts. Not "Great post!" — add a real observation or question. This builds Depth Score and warms up the outreach.
55-65 min	LinkedIn Post (Mon / Wed / Fri only) Write and publish from your PERSONAL profile, not company page. Personal posts get 5-7x more reach than company page posts. Use the content calendar on page 5.
65-70 min	CRM Update Update pipeline stages: To Send → Sent → Replied → Call Booked → Won Note any replies received. Flag anyone at Sent +3 days for follow-up tomorrow.

The Visitor List Play — highest ROI Premium feature

If a CPO, VP Product, or Founder visited your page:

- Do NOT connect cold — they already know you exist
- Like or comment on one of their recent posts first
- Send connect within 24 hours: "Hi {{First}}, noticed you visited Eswar Creatives. Happy to connect — I design systems for B2B SaaS and security teams."

This is warm outreach. Reply rates are 3-4x higher than cold.

Multi-channel sequence that converts (3.5x more replies than email alone)

Day 1: Connect request (LinkedIn) | Day 2: Like/comment their post | Day 3: Cold email Touch 1

Day 5: Post-connect DM | Day 7: Email Touch 2 — reference LinkedIn connect

Day 10: LinkedIn DM 2 — reference email | Day 12: Email Touch 3 — value drop

30-Day LinkedIn Content Calendar

Post from your PERSONAL profile. 3x per week — Mon / Wed / Fri.

LinkedIn now rewards Depth Score: saves, shares, substantive comments. Make people stop and think.

DAY	FORMAT	TOPIC / HOOK	WHAT TO INCLUDE
W1 Mon	Carousel	UX Mistake in Popular SaaS	"I audited this onboarding and found 3 things costing activation" — 5 slides: identify app, friction 1, friction 2, friction 3, what I would fix
W1 Wed	Image + Text	CYGNVS Before/After	"12 alerts grouped into 1 incident. Here is the design decision behind it." — Show the AI grouping banner. Explain the 3 compounding factors.
W1 Fri	Text Post	Design Systems ROI	"Why 180 semantic tokens beat a style guide every time" — Explain token architecture in plain English. End with a question.
W2 Mon	Text + Image	UX Audit Story	"I did a 5-day audit on a fintech dashboard. Here is what I found." — Anonymise client. Show 3 findings. Mention the \$750 audit offer at the end.
W2 Wed	Carousel	Token Architecture Visual	"How we built a cross-platform design system in 14 weeks" — 5 slides: problem, token structure, component count, before/after, result metric
W2 Fri	Text Post	Enterprise Language	"Design debt is a business risk. Here is how to explain it to a CPO." — Use the language table from the acquisition handbook.
W3 Mon	Carousel	Cross-Platform Story	"Same component. Web, iOS, Android. Here is how we did it." — Show token map. Explain how one change updates all 3 platforms.
W3 Wed	Text + Image	Client Result	"The metric that surprised us: +18% analyst satisfaction from a UI change." — Break down what changed and why it moved the number.
W3 Fri	Text Post	Systems Thinking	"Most designers fix screens. Design systems architects fix the system." — Contrast screen-level vs systems-level thinking. Strong POV post.
W4 Mon	Carousel	UX Audit Walkthrough	"Here is exactly what a 5-day UX Audit looks like — day by day." — Day 1-5 breakdown. Show the deliverable format. CTA at end.
W4 Wed	Text Post	Pricing Transparency	"Why I charge \$750 for a UX Audit (and why that is the right number)." — Explain fixed-fee model, what it covers, why it de-risks the engagement.
W4 Fri	Image Post	30-Day Reflection	"30 days of LinkedIn outreach. Here is what worked and what did not." — Share real numbers. Honesty drives engagement and inbound.

Depth Score tip (LinkedIn 2026 algorithm)

LinkedIn now deprioritises quick likes and generic comments. Your posts need saves, private shares, and substantive comments. End every post with a specific question — not "What do you think?" but "Which of these 3 friction points would you fix first?"

30-Day Scorecard

Fill in every Friday. These 6 numbers tell you everything.

Metric	Week 1	Week 2	Week 3	Week 4	Target
Total touches sent	___	___	___	___	200 total
Email reply rate	___%	___%	___%	___%	> 8%
LinkedIn reply rate	___%	___%	___%	___%	> 12%
Discovery calls booked	___	___	___	___	4+
Audit proposals sent	___	___	___	___	2+
Audits won (paid \$750)	___	___	___	___	1+
Page visitors (titles)	___	___	___	___	Track weekly
New page followers	___	___	___	___	50+ total

Diagnostic: What the Numbers Tell You

Signal	What it means	Action
Reply rate < 4% by Day 5	Personalization problem, not volume	Rewrite the opening line before sending more
Reply rate > 10%	Message-market fit found	Scale volume to 15 touches/day
Visitor list: 0 notable titles	Content not reaching ICP	Change post topic — try more specific UX critique
Calls booked but no audit close	Call pitch needs work	Sell the \$750 audit only — not the full project
Auto-invite followers flat	Post engagement too low	Add a specific question at the end of every post
LI reply > email reply	Warm > cold channel for your ICP	Shift 60% effort to LinkedIn DMs

What NOT to Do With Premium (protect your 30 days)

Feature	Skip it?	Reason
Competitor insights	Week 3+ only	No baseline data yet — check after 2 weeks of posts
AI post writing	Draft only, always rewrite	Professionals detect generic AI content — kills credibility
Invite followers of similar pages	Week 3+ only	Build content first or invites feel cold
LinkedIn Ads / Sponsored posts	Skip entirely	Not the right lever for a 1-person studio at this stage
Sales Navigator	Nice to have	Your 24-contact CRM + LinkedIn CSV is enough for 30 days
