

STRATEGIC EXECUTION PLAN • 2026

Newgen Branding

Foundation • Visibility • Scale

A phased roadmap to scale from 1,500 events
to a premium, systems-driven event brand

The gap between the work done and the world's perception

1,500+

Events completed

Since 2018 — weddings, corporate, social, destination

~200

Instagram followers

Despite completing 40–50 events every month

₹15L vs ₹30L

Revenue gap

Monthly revenue halved when systems weren't running

The core problem is not quality — it is systems.

Mohan said it himself: *"1,500 events panni 200 followers — oru proof illame nadandhuppen. Asset ellam waste aayiduchu."* The work is outstanding. The pipeline from work to world doesn't exist yet.

PHASE 3

Scale

Month 4 – 6 · Solutions 06 – 08

The brand is visible. Now build the engine underneath — so Newgen grows whether Mohan is at the event or not.

- 06 SOP & Workflow Definition
- 07 CRM & Lead Automation
- 08 Personal Brand — Mohan as Founder

SOP & Workflow Definition

Document the system that currently exists only in Mohan's head — so Bengaluru and Tiruchi can run without him

Field Execution SOP

Venue walkthrough checklist (Mohan's mental checklist — documented)

Mandatory setup shots protocol

Material order & quality check

Day-of team briefing format

Completion sign-off + photo send

Customer Relationship SOP

Lead intake to site visit workflow

Quotation format + approval process

Contract + advance payment process

Client communication templates (WhatsApp)

Post-event: invoice, photos, review request

Business Operations SOP

Mandapam owner relationship management

Team onboarding document

Vendor briefing + brand guidelines handover

Monthly reporting + revenue tracking

Branch manager accountability checklist

SOP lives in Mohan's head today. After this project it lives in a document — and Devan, Tiruchi team, and Bengaluru team all operate from the same playbook.

- 'Sketch to setup' — behind the scenes format
- LinkedIn profile optimisation
- BNI profile + one-to-one pitch deck
